GIATI TAKES A NEW STYLE DIRECTION WITH THE INTRODUCTION OF APRIO

GIATI Designs, Inc., manufacturer of quality crafted indoor/outdoor teak furniture, cast aluminum furniture, Market Umbrellas and imported European all-weather textiles, introduces **Aprio**, a striking, contemporary collection that represents an exciting new style direction for **GIATI**. The **Aprio Collection** includes seven beautifully designed pieces that include a dining chair, lounge chair, ottoman, chaise lounge, round dining table, square dining table and a square side table.

Designed by Mark Singer, the collection takes its inspiration from the forms of the Art Nouveau movement infused with classic modern details. Elegant design and comfort are combined to create an entirely new look in interior/exterior furniture. Crafted of die cast aluminum and stainless steel with a powder coated finish, the **Aprio Collection** pieces have a sleek, angular appearance in an artistic combination of beauty and strength. Elegant tapered legs ascend into a rectangular arm structure, providing stability. Sling seating is reminiscent of the wings of a bird in flight. Glass top tables have a light and airy, yet stately appearance. Bases are a soft champagne color in a lightly textured sand finish.

The structural fabric sling seat is fabricated in nylon mesh in a variety of colors and textures or approved COM. Optional seat and back pads are available in a wide array of colors and patterns from the **GIATI** all weather textiles collections. COM is another option.

The **Aprio Collection** is an ideal choice for both residential and commercial applications.

GIATI Designs, Inc. is headquartered in Santa Barbara, California. Giati products are available through a national network of designer showrooms and independent sales representatives.
