**GIATI LAUNCHES THE PALAZZIO COLLECTION  
OF INDOOR/OUTDOOR TEAK FURNITURE**

**GIATI Designs, Inc.**, manufacturer and marketer of quality crafted indoor/outdoor teak furniture, market umbrellas and imported French all-weather textiles, introduces a unique and timeless furniture collection, **Palazzo**.

The design theme of "classic meets modern" is gracefully executed in this latest collection designed by Mark Singer. Each piece is created to blend with both modern and traditional interior and exterior environments. The Palazzo Collection utilizes the exquisite combination of organic plantation grown solid teak and French Beaumaniere limestone, each striking materials in its own right. The limestone, derived from ancient quarries in France, is available in a variety of textures and colors. It is specially coated with a transparent sealer to protect the tabletops without altering their color. All teak timber is kiln dried and seasoned before cutting, resulting in dimensional stability and a lifetime of use. The Palazzo Collection is the first of its kind to combine large-scale designs in the finest quality teak, with expert joinery and craftsmanship.

Shown is the **Palazzo Lounge Chair**, which features a classic leg, graced with a Regency style arm and post. Three vertical slats comprise the gently curved back support.

GIATI Designs, Inc. is headquartered in Santa Barbara, California. Manufacturing facilities are located in Santa Barbara. Giati products are available through a national network of designer showrooms, independent sales representatives and select retailers.
